

Charter Communications strives to provide value and quality programming to our customers. Our agreements with programmers to carry their services have stated expiration dates, at which time, new contracts are negotiated. Our goal always is to obtain renewals or extensions of such contracts; doing so with our customer's best interest in mind. Charter Communications is currently in negotiations with Scripps Networks regarding the renewal of carriage of HGTV and Food Network. We are providing notice to our customers that in the unlikely event an agreement is not reached, Charter Communications may no longer have permission to provide these networks, effective 12/31/09. Charter Communications remains committed to making certain that we are doing what is best for our customers.
