MORE INFO ON REVERSE

Following a major disaster, police, fire and medical professionals may not be able to fully meet the demand. People will have to rely on each other to meet the immediate life saving and life sustaining needs, particularly in isolated neighborhoods that may be cut off from the main roads for a period of time. To meet this need, **the County of Los Angeles Fire Department's Community Emergency Response Team (CERT) program was developed to provide basic training in safety and life-saving skills for the general public.**

The **County of Los Angeles Fire and the City of Duarte Public Safety Department** are proud to present CERT training to the Duarte Community and members of the public. *All graduates are welcome to join the Duarte CERT Program!*

The training course will be presented as a series of five (5) classes. The FEMA certified course curriculum will cover the following modules:

- Disaster Preparedness
- CERT Organization
- Disaster Psychology
- Terrorism & CERT
- Disaster Medical Operations
- Light Search and Rescue
- Disaster Fire Safety
